PROFILE

Aspiring Frontend developer with expertise in REACTJS , TAILWINDCSS and proficiency in HTML, CSS, DJANGO, BOOTSTRAP, and SQL. Possesses analytical skills and a strong foundation in computer principles. Actively seeking opportunities to apply theoretical knowledge in real-world scenarios. Eager to contribute to environment-friendly and computer culture coding practices, staying updated on the latest trends in Frontend development.

WORK EXPERIENCE

WEB DEVELOPER INTERN

THE ENTREPRENEURSHIP NETWORK

06/2024 - **Present**

- **Building core components for Website using ReactJS and Tailwind CSS. Implementing state management, API integration, and responsive design. Collaborating closely with design and backend teams to deliver exceptional user experiences. Optimizing component performance and accessibility for a seamless user journey.**

- **Technology Used :** REACTJS , TAILWINDCSS

- **Projects :** Ten Mentor Website

WEB DEVELOPER INTERN

INTERNEP

10/2023 - 04/2024

- **Interned at InternPe for 8 months** , I have expertise in ReactJS, CSS, HTML, Bootstrap , and Firebase, demonstrating strong web development skills. I show a solid understanding of front-end technologies and backend integration.

- **Technology Used :** HTML, CSS, REACTJS, JAVASCRIPT , BOOTSTRAP

- **Projects :** Web-Chat Application, Dice Game , Car Landing Page.

PROJECTS

BACKEND PROJECTS

<https://github.com/aadarsh1503/django>

- Contributed to a Django web application, implementing features such as student data management, subject marking, and dynamic ranking. Utilized Python, Django, and database interactions for effective data handling and display. Analytical approach ensured efficient and accurate management of data.

- **Recipe Website** - Integrated Django's built-in authentication system for user sign-up, sign-in, and log-out. Implemented access controls and user-specific views, allowing users to manage their own recipes. This involved analytical skills, computer principles, and environment-friendly coding practices, adhering to computer culture.

1. Implement access controls and user-specific views, allowing users to manage their own recipes, providing a personalized experience for each authenticated user.

- Authorization and Authentication using HTML, CSS, Python Django, REST Framework. Applied Computer Culture best practices to ensure secure and efficient authorization processes.

FRONTEND PROJECTS

<https://dice-game-react-js-weld.vercel.app/>

- This React-based dice game showcases state management and component composition, utilizing technologies like React, styled-components, and ES6 JavaScript.

<https://github.com/aadarsh1503/First-React-Js-Project>

- This web page, utilizing ReactDOM's createRoot for rendering, features styling with the Poppins font and defines layouts and button styles.

<https://github.com/aadarsh1503/Parallax-web>

- Parallax Scrolling Website, a mesmerizing journey through captivating visuals and interactive storytelling
